EXAMINER

HOLDER, ANNER N

ART UNIT

PAPER NUMBER

2621

MAIL DATE

DELIVERY MODE

08/27/2008

PAPER

**Please find below and/or attached an Office communication concerning this application or proceeding.**

The time period for reply, if any, is set in the attached communication.

<b>Office Action Summary</b>	<b>Application No.</b> 10/816,724	<b>Applicant(s)</b> THANGARAJ ET AL.	
	<b>Examiner</b> ANNER HOLDER	<b>Art Unit</b> 2621	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

#### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

#### Status

- 1) ☒ Responsive to communication(s) filed on 15 July 2008.
- 2a) ☐ This action is **FINAL**.                      2b) ☒ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

#### Disposition of Claims

- 4) ☒ Claim(s) 1-4,6-22 and 24-27 is/are pending in the application.
- 4a) Of the above claim(s) \_\_\_\_\_ is/are withdrawn from consideration.
- 5) ☐ Claim(s) \_\_\_\_\_ is/are allowed.
- 6) ☒ Claim(s) 1-4,6-22 and 24-27 is/are rejected.
- 7) ☐ Claim(s) \_\_\_\_\_ is/are objected to.
- 8) ☐ Claim(s) \_\_\_\_\_ are subject to restriction and/or election requirement.

#### Application Papers

- 9) ☐ The specification is objected to by the Examiner.
- 10) ☒ The drawing(s) filed on 01 April 2004 is/are: a) ☒ accepted or b) ☐ objected to by the Examiner.  
Applicant may not request that any objection to the drawing(s) be held in abeyance. See 37 CFR 1.85(a).  
Replacement drawing sheet(s) including the correction is required if the drawing(s) is objected to. See 37 CFR 1.121(d).
- 11) ☐ The oath or declaration is objected to by the Examiner. Note the attached Office Action or form PTO-152.

#### Priority under 35 U.S.C. § 119

- 12) ☐ Acknowledgment is made of a claim for foreign priority under 35 U.S.C. § 119(a)-(d) or (f).
- a) ☐ All    b) ☐ Some \*    c) ☐ None of:
1. ☐ Certified copies of the priority documents have been received.
  2. ☐ Certified copies of the priority documents have been received in Application No. \_\_\_\_\_.
  3. ☐ Copies of the certified copies of the priority documents have been received in this National Stage application from the International Bureau (PCT Rule 17.2(a)).

\* See the attached detailed Office action for a list of the certified copies not received.

## **DETAILED ACTION**

### ***Continued Examination Under 37 CFR 1.114***

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 07/15/08 has been entered.

### ***Response to Arguments***

2. Applicant's arguments with respect to claims 1-4, 6-22, 24-27 have been considered but are moot in view of the new ground(s) of rejection.

### ***Claim Rejections - 35 USC § 103***

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claims 1-4, 6-7, 10-15, 19-22, and 24-25 are rejected under 35 U.S.C. 103(a) as being unpatentable over Malladi et al. (Malladi) US 5,815,206 in view of Hulmani et al. US 7,349,428 B2.

Art Unit: 2621

5. As to claim 1, Malladi teaches a method for decoding video data, [Abstract; Col. 1 Lines 24-28; Col. 2 Lines 61-63; Fig. 4] said method comprising: writing one or more start codes to a start code table; [Fig. 4; Col. 4 Lines 25-29; Col. 15 Lines 14-66; col. 17 lines 21-55] and writing presentation time information to the start code table; [Col. 15 Lines 34-39, 54-56] and wherein the start code table writing one or more start codes further comprises writing a plurality of start codes to a particular one of the plurality of data words. [col. 15 lines 14-66; col. 17 lines 21-55 – writes the start code to the data it represents.]

Hulmani teaches the use of data words and the use of start codes within the data word in the start code table. [col. 7 lines 27-33; col. 8 lines 26-40, 55-65]

It would have been obvious to one of ordinary skill in the art at the time the invention was made to incorporate the teachings of Hulmani with the decoder of Malladi to improve efficiency of coding and display of data. [Hulmani - col. 1 lines 28-35]

6. As to claim 2, Malladi (modified by Hulmani) teaches presentation time information comprises a presentation time stamp. [Col. 15 Lines 34-39, 54-56]

7. As to claim 3, Malladi (modified by Hulmani) teaches writing decoding time information to the start code table. [Fig. 4; Col. 4 Lines 25-29; Col. 15 Lines 34-39, 45-46, 54-56]

8. As to claim 4, Malladi (modified by Hulmani) teaches the decoding time information comprises a decoding time stamp. [Malladi - Col. 15 Lines 34-39, 45-46, 54-56]

Art Unit: 2621

9. As to claim 6, Malladi (modified by Hulmani) teaches the plurality of start codes comprises a slice start code and a non-slice start code. [Malladi – Col. 10; Lines 63-67; Col. 11 Lines 3-9; Fig. 1B]

10. As to claim 7, Malladi (modified by Hulmani) teaches writing a command to the start code table. [Malladi - Fig. 4; communicates with start code table writing commands is obvious]

11. As to claim 10, Malladi (modified by Hulmani) teaches A circuit for decoding video data, [Malladi – Abstract; Col. 1 Lines 24-28; Col. 2 Lines 61-63; Fig. 4] said circuit comprising: a start code table for storing start codes, the start code table comprising a plurality of data words; and a video transport processor [Malladi – Fig. 4 (417)] for writing a plurality of start codes [Malladi - Col. 15 Lines 34-39, 45-46, 54-56] to a particular data word in the start code table. [Hulmani - col. 7 lines 27-33; col. 8 lines 26-40, 55-65]

12. As to claim 11, Malladi (modified by Hulmani) teaches the plurality of start codes comprises a slice start code and a non-slice start code. [Malladi – Col. 10; Lines 63-67; Col. 11 Lines 3-9; Fig. 1B]

13. As to claim 12, Malladi (modified by Hulmani) teaches the video transport processor [Malladi – Fig. 4 (417)] writes presentation time information to the start code table. [Malladi – Col. 15 Lines 34-39, 54-56]

As to claim 13, Malladi (modified by Hulmani) teaches the presentation time information comprises a presentation time stamp. [Malladi – Col. 15 Lines 34-39, 54-56]

Art Unit: 2621

14. As to claim 14, Malladi (modified by Hulmani) teaches the video transport processor writes decoding time information to the start code table. [Malladi – Fig. 4; Col. 4 Lines 25-29; Col. 15 Lines 34-39, 45-46, 54-56]

15. As to claim 15, Malladi (modified by Hulmani) teaches the decoding time information comprises a decoding time stamp. [Malladi – Fig. 4; Col. 4 Lines 25-29; Col. 15 Lines 34-39, 45-46, 54-56]

16. As to claim 19, see rejection of claim 1, except this is a claim to an article of manufacture with the same limitations as claim 1.

17. As to claim 20, see rejection of claim 2, except this is a claim to an article of manufacture with the same limitations as claim 2.

18. As to claim 21, see rejection of claim 3, except this is a claim to an article of manufacture with the same limitations as claim 3.

19. As to claim 22, see rejection of claim 4, except this is a claim to an article of manufacture with the same limitations as claim 4.

20. As to claim 24, see rejection of claim 6, except this is a claim to an article of manufacture with the same limitations as claim 6.

21. As to claim 25, see rejection of claim 7, except this is a claim to an article of manufacture with the same limitations as claim 7.

22. Claims 8-9, 16-18, and 26-27 are rejected under 35 U.S.C. 103(a) as being unpatentable over Malladi et al. (Malladi) US 5,815,206 in view of Hulmani et al. US 7,349,428 B2 further in view of Forecast et al. (Forecast) US 7,096,481 B1.

Art Unit: 2621

23. As to claim 8, Malladi (modified by Hulmani) teaches the limitations of claim 7, writing a to the start code table. [Malladi – Fig. 4; Col. 4 Lines 25-29; Col. 15 Lines 34-39, 45-46, 54-56]

Malladi (modified by Hulmani) does not specifically teach a reference clock offset.

Forecast teaches a reference clock offset. [Fig. 40; Col. 20 Lines 7-9, 23-26]

It would have been obvious to one of ordinary skill in the art at the time the invention was made to combine the teachings Forecast with the decoding device of Malladi modified by Hulmani, allowing for correction in timing through the use of the clock offset.

24. As to claim 9, Malladi (modified by Hulmani and Forecast) teaches the command Malladi - Fig. 4; communicates with start code table writing commands is obvious] and the reference clock offset [Forecast - Fig. 40; Col. 20 Lines 7-9, 23-26] are written to another particular one of the plurality of data words. [Hulmani - col. 7 lines 27-33; col. 8 lines 26-40, 55-65]

25. As to claim 16, see rejection of claim 8, except this is a claim to a circuit with the same limitations as claim 8.

26. As to claim 17, see rejection of claim 7, except this is a claim to a circuit with the same limitations as claim 7.

27. As to claim 18, see rejection of claim 9, except this is a claim to a circuit with the same limitations as claim 9.

Art Unit: 2621

28. As to claim 26, see rejection of claim 8, except this is a claim to an article of manufacture with the same limitations as claim 8.

29. As to claim 27, see rejection of claim 9, except this is an article of manufacture to a circuit with the same limitations as claim 9.

### ***Conclusion***

Any inquiry concerning this communication or earlier communications from the examiner should be directed to ANNER HOLDER whose telephone number is (571)270-1549. The examiner can normally be reached on M-Th, M-F 8 am - 3 pm EST.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Mehrdad Dastouri can be reached on 571-272-7418. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
